Inks

List / Save / Instapaper your Google Chrome links from the terminal (on OS X)

Installation

```
git clone https://github.com/unforswearing/Inks.git
```

Or download the zip and move to your desired location.

Usage

```
Inks <option> search-term
```

Options

```
-s to save the links to a file on the desktop
-c to copy the links to your clipboard
-p to print the links to stdout
-q to quietly print the links to stdout
-i to save the link(s) to instapaper
-w to save each url as a pdf (saves the page via 'wkhtmltopdf')
-h prints this help message
```

Note:

- one (and only one) option is permitted. Inks will fail if multiple options are specified.
- using option -s will allow you to specify an output file, such as:
Inks -s searchterm matchinglinks.txt

Dependencies

`wkhtmltopdf` for saving a the url/webpage as a pdf. Visit<http://wkhtmltopdf.org/downloads.html>.

To Do

- ☐ Allow regex to find matching urls
- ☐ Add support for other read later/bookmarking services
- ☐ Stop using Applescript to find urls
